

**REMARKS**

The present communication responds to the Office Action mailed May 6, 2004 for the above-identified application.

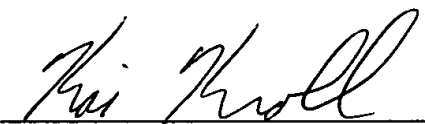

The Examiner indicated nonstatutory double patenting. A terminal disclaimer is enclosed to overcome this rejection.

Output control "means" in element (e) of claim 115 has been changed to output control "circuitry" to address the lack of antecedent basis in the claim and the dependent claims 116-141.

A check (\$110) is included to cover the cost of filing this amendment with 30-day extension (\$55) and the terminal disclaimer (\$55). If the Examiner feels that prosecution of the present application can be materially advanced by a telephonic interview, the undersigned would welcome a call at the number listed below.

Respectfully submitted,

Dated: 8/18/04
